BIOGRAPHY

Lisa McCracken Mairs

Project Manager

U.S. Army Corps of Engineers Galveston District

Lisa McCracken Mairs is a Project Manager with the US Army Corps of Engineers, Galveston District, where she manages several Civil Works Projects, including the Cedar Bayou Navigation Channel Improvement project, Metro Houston Regional Watershed Assessment, GIWW: High Island to Brazos River. Lisa is the district Flood Risk Manager and manages the Floodplain Management Services Program that works across the agency to focus the policies, programs and expertise of USACE toward reducing overall flood risk.

Lisa started her USACE Project Management career by managing the Planning Assistance to States Program and the Continuing Authorities Program. She has been with the US Army Corps of Engineers for 4 years.

Prior to joining the Corps Ms. Mairs was a Project Manager and Lab Manager for KIN-TEK Analytical, Inc. located in La Marque, Texas. There she was responsible for developing calibrated gas standards, complex gas mixtures and chemical warfare agents.

Lisa graduated from Western Carolina University with a Bachelor of Science in Biology (Magna Cum Laude) and Master of Science in Chemistry.
