

TRRP Training: 2019 Program

WHO & WHAT:

Texas Risk Reduction Program regulations (TRRP; 30 TAC 350) establish consistent risk-based protocols for evaluation and response to soil, groundwater, or surface water contamination associated with environmental releases of regulated wastes or substances.

Presented by GSI Environmental Inc., this popular and informative training series is a must for *professionals who need a working understanding of TRRP and those needing to stay up-to-date* with the latest TCEQ TRRP guidance and policies.

TRRP Training Course (2 Days): Provides an overview of the TRRP framework and step-by-step training on site evaluation and remediation procedures established under the TRRP rule.

Attendees will become acquainted with key guidance and policies covering affected property assessments, protective concentration limits (PCL) and response actions. The course material presents strategies for efficient project management in compliance with TRRP, and explains the various report forms adopted by TCEQ.

WHEN & WHERE:

EARLY REG
(BY 7/15/19)

October 1-2 TRRP Training - 2 days \$1,295 \$1,195

Location: Crowne Plaza River Oaks (GSI TRRP 2019)
2712 SW Freeway, Houston, TX 77098
713.523.8448, <http://www.crowneplaza.com>

COURSE CONTENTS
