

TRRP Training: 2024 Program

presented by: GSI Environmental Inc.
 sponsored by: Texas Association of Environmental Professionals (TAEP)

Texas Risk Reduction Program regulations (TRRP; 30 TAC 350) establish consistent risk-based performance standards for assessment and response to soil, groundwater, or surface water impacts associated with environmental releases of regulated wastes or substances.

Presented by GSI Environmental Inc., this popular and informative training course is a must for environmental professionals who need a working understanding of TRRP and the latest TCEQ TRRP guidance and policies, as well as attorneys who may encounter environmentally-impacted properties as part of their legal practice.

TRRP Training Course (2 Days): Provides an overview of the TRRP framework and step-by-step training on property assessment and response action procedures established under the TRRP rule.

Attendees will become acquainted with rules, key guidance, and policies covering affected property assessments, protective concentration levels, and response actions. The course material presents strategies for efficient project management in compliance with TRRP and explains the various report forms adopted by TCEQ.

Sponsored by:

Texas Association of Environmental Professionals (TAEP)

TAEP is the premier organization for environmental professionals in the State of Texas. The goals of TAEP include the advancement of the environmental profession and the establishment of a forum to discuss important environmental issues. TAEP members receive a 10% discount. Please email president@taep.org to receive the discount code.

This course qualifies for:

- > 14 professional development hours for PE/PG continuing education
- > 14 accredited MCLE hours for Texas State Bar continuing education
